

STAY INSIDE PLAY INSIDE

A program for Baltimore City youth and school districts
Summer 2020 and Beyond

MISSION STATEMENT

Dogan Entertainment, a live gaming company, desires to create a safe space for Baltimore youth to connect with one another through recreational gaming and learn technical / coding skills.

Deck Outline

THE VISION

- What we're doing
- Who it's for
- Why we're doing it
- When it goes live
- What to expect
- Where we want to take it

PARTNER OPPORTUNITIES

- Who is involved so far
- What we are looking for
- How you can participate
- Who you can contact

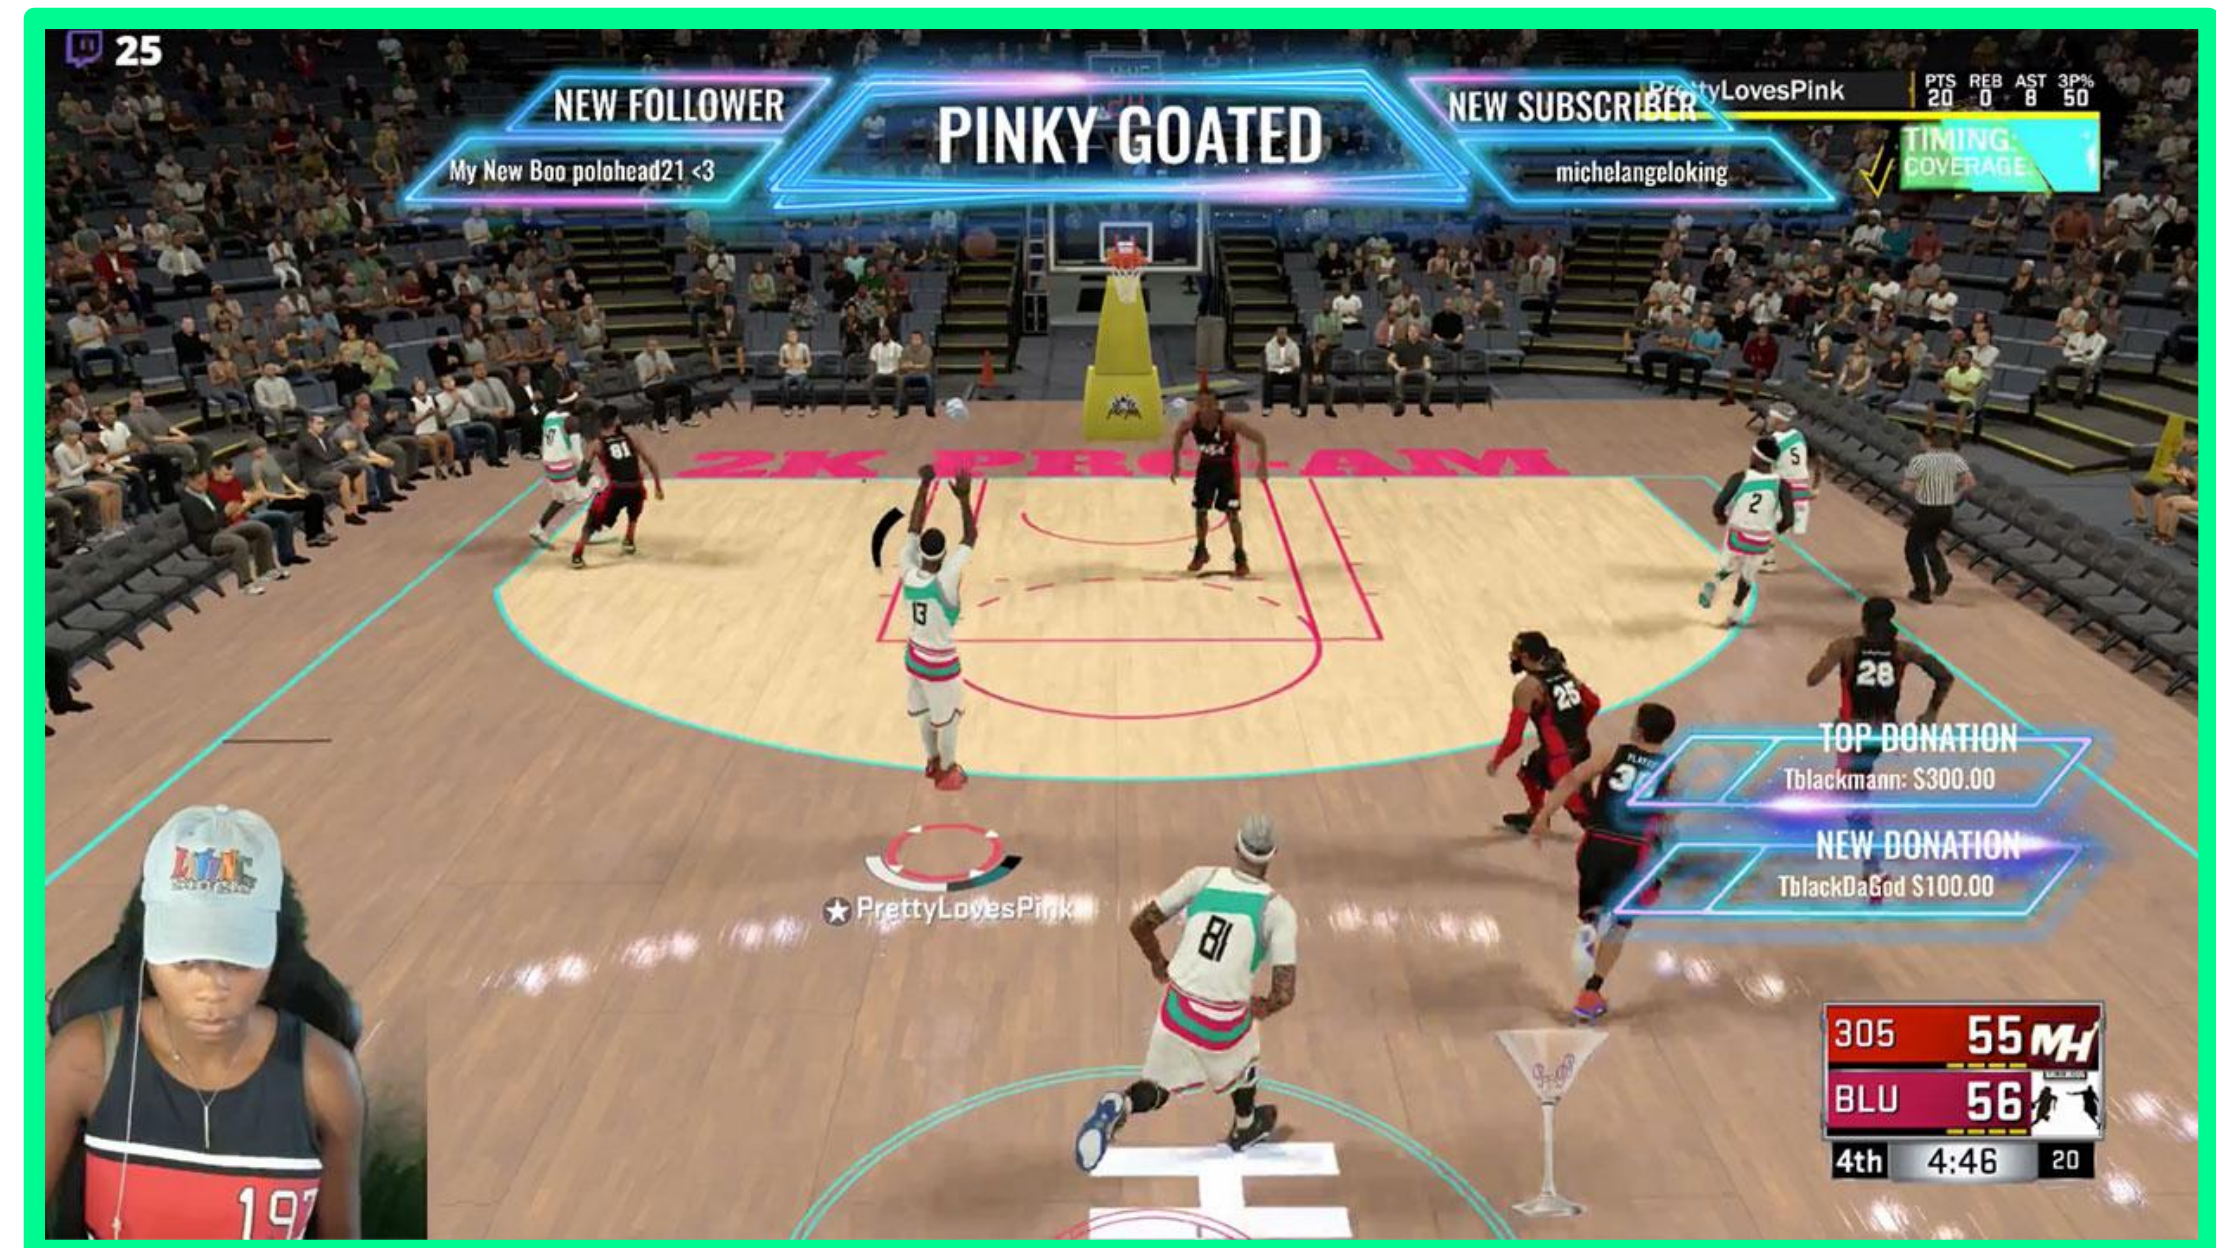

EXTRAORDINARY OPPORTUNITY FOR STUDENTS

Dogon Ent. ,Unanimous Games along with Stand Up Baltimore and Joy Baltimore offer an extraordinary opportunity for students and Baltimore youth to participate in an exciting distant and or on site learning program.

NBA 2K20

The 2K basketball tournament will be for students ages 13-18

E SPORTS CODING TECH

School districts across the country have added E sports to their programming. Baltimore City will be the first to adopt this newest technology in E Sports as part of recreational programs and game coding as an alternative to physical sports.

SUMMER PROGRAMS

Dogon Entertainment x Unanimous Games will offer a platform in which youth of Baltimore will be able to play and learn in summer programs remotely from home or on location.

SOCIAL DISTANCING MANDATES

The goal of Stay Inside Play Inside program is to limit the movement of youth during social distancing mandates in the state of Maryland and promote positive recreation and learning

We offer tournaments for students to play various games on Xbox and PlayStation system. We offer coding for participants to learn software coding language

TITLES WE PLAY FOR RECREATION

 NBA 2K20

NBA 2K20

The 2K basketball tournament will be
Summer of 2020 a ages 13-18

This camp in person and for 10 -20 students

Students will enjoy competitive play virtually or engage in hands on learning. GTC CAMP involves coding and enrichment skills for the youth of Baltimore City.

Gaming and Coding will be in schools

E-sports gaming is popular throughout the world and offers recreation at home for amateurs play with others Coding for gaming is the language needed to build these games and offers career and higher learning opportunities at 180 universities currently

MANY WAYS TO GET INVOLVED

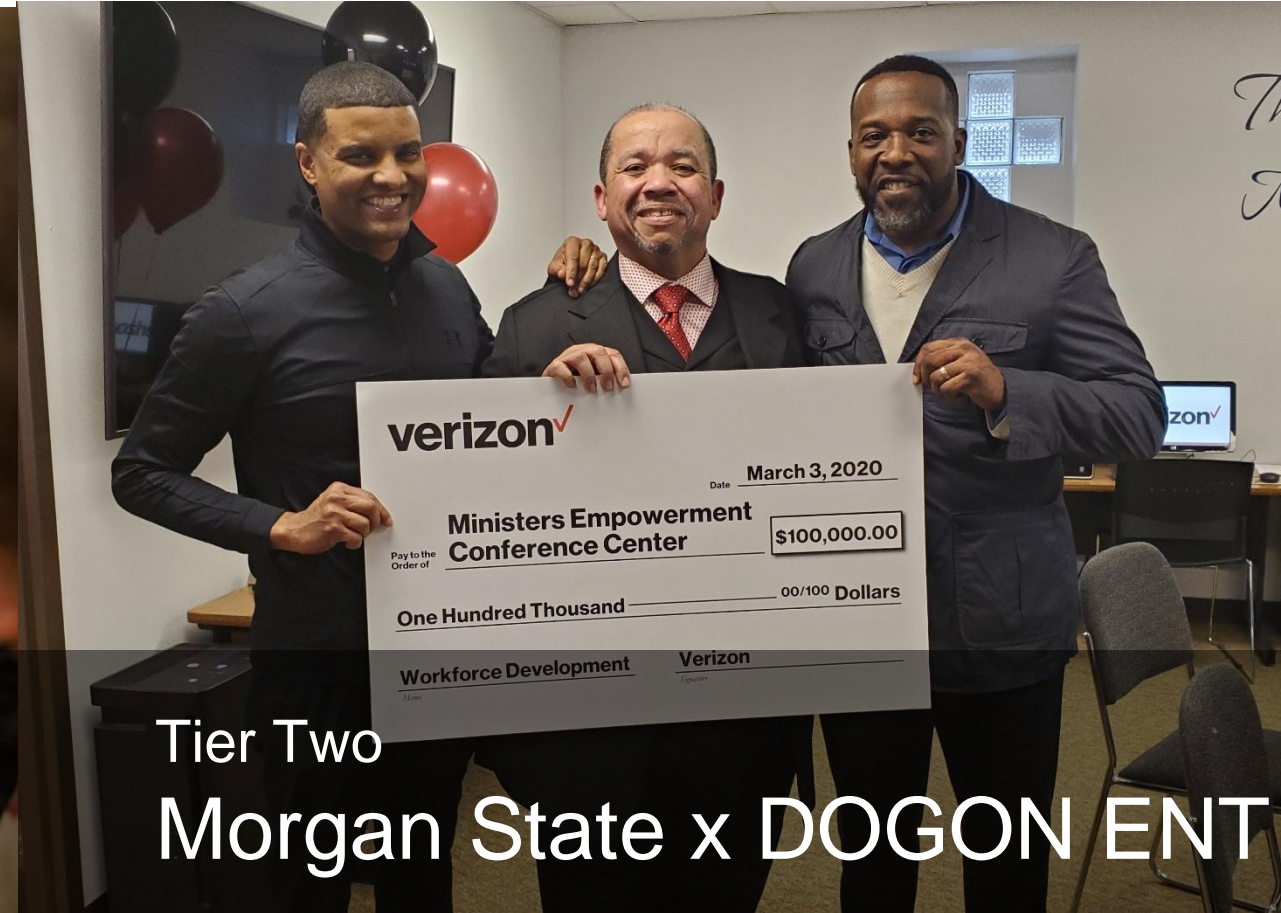

Tier One
Virtual or In Person

Students and youth will play for prizes and incentives to improve their skill on favorite games.

Baltimore positive role models and our instructors will virtually or “in person” encourage positive behavior reinforcements

Currently Summer 2020, school districts in New York City and Bahamas have been contracted to use the platform

Tier Two
Morgan State x DOGON ENT

And the Church Shall Lead" initiative with MSU create programing in coding, science and research to help reform the Baltimore criminal justice system

Using technology, Morgan State University x Dogon Ent. , stakeholders and black churches will play a major role in healing broken communities to make them safe , strong and thriving. Ten computer labs were created to help children and young adults

Sponsored by Verizon, ten computer hubs have been created in Baltimore City to conduct technical training programs that will introduce students to gaming and coding for skill development and College and Career readiness

Tier Three
GTC CAMP

Camp on location can be activated based on stages 1 through 3 for MD stay-at-home orders

Helps the goal of social distancing for the City of Baltimore

Expandability is possible: Curriculum available with instructors on site

CAMP GTC is located in Downtown Baltimore

Tier Four
Programming Virtual

Pricing will range from \$50 TO \$100 per student and time will range between 4 weeks in 8 weeks.

Virtual sign up with UG GAMES

Participants must have their own system PlayStation, Xbox, computer and or mobile device.

Demonstrations of the platform are available. Virtual events for final competition can be activated based on stages 1 through 3 for MD stay-at-home orders

Helps the goal of social distancing for the City of Baltimore

OUR VISION

We are solidified with individuals behind these brands that have over 80 years combined years of experience in event programming / education

Unanimous Entertainment will be the host and provide the assets for creating the program, the full access to the platforms.

Extensive media coverage and partners will build the excitement around platforms.

Unanimous Games will provide the influential personalities to interact with classes and tournaments. They are also home to the largest management of black pro gamers who will motivate amateur players. This will be a experience with some unforgettable “who's who” personalities participating in all areas of Black Culture leading to the creation of a electric atmosphere

PROGRAM DESIGN

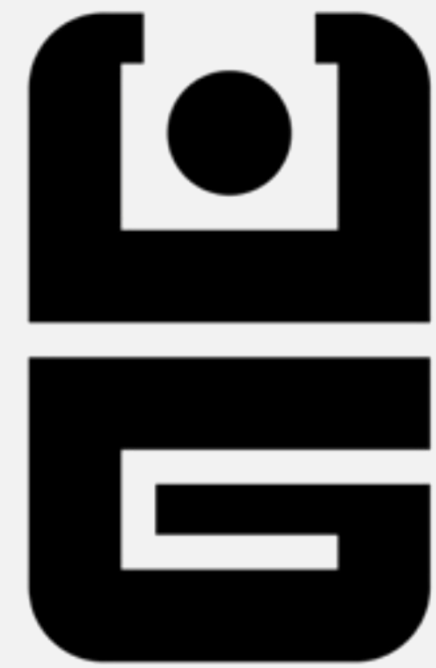

These programs range from a diverse summer camp for school ages 13 to 18 to ‘stay at home’ learning and recreation. The program will be a mix of applicable education and recreational activities within gaming / coding development.

At the end of all sessions , there will be a gaming tournament for the participating students to both showcase their personal virtual reality development and overall gaming skills. Headquarters is MAP Gaming Tech 229 Park Pl. Baltimore MD
